NOTES

- Each round is worked in groups of no more than 10 stitches so don't feel intimidated by it looking tricky, just work each repeat and pop a stitch marker in if it helps to keep track of where you are.
- Make sure that you block your coasters when they are all complete - it really helps to show the detail in the stitches and you can make sure they all end up the same size too!
- Unless otherwise stated a chain at the beginning of a round does not count as a stitch.
- This pattern is worked in the round, do not turn your work at the end of the round. Use a removable stitch marker to mark the end of the round.

STITCH KEY
